

Australian Government Carbon Neutral Program Public Disclosure Summary

THIS DOCUMENT WILL BE MADE PUBLICLY AVAILABLE

Responsible Entity name: Frasers Property Australia

Building / Project Name: DHL Supply Chain (Australia) – 227 Walters Rd Arndell Park

Building Owner (if different from Responsible Entity): Frasers Property Australia

Project Address: 227 Walters Rd Arndell Park NSW 2148

This building has been Certified Carbon neutral (whole building) by the GBCA against the Climate Active Carbon Neutral Standard for Buildings (the standard) for the period 13/02/2020 to 12/02/2021.

Emissions Reduction Strategy

The Responsible Entity has achieved either	A 4 Star Green Star – Performance Rating; or	<input checked="" type="checkbox"/>
	At least 8 out of 20 (base building) in the Greenhouse Gas Emissions credit; or	<input type="checkbox"/>
<i>(The Green Star – Performance Certificate and associated Carbon Neutral Certificate are displayed on the Department’s website)</i>	At least 9 out of 23 (whole building) in the Greenhouse Gas Emissions credit.	<input type="checkbox"/>

Or, the Responsible Entity has provided the following commitment to achieve a minimum energy efficiency rating within three years of the building’s first carbon neutral certification

Reporting Year Period

The project’s nominated Green Star - Performance period 12 consecutive months from which data will be drawn for the purposes of the project’s <i>Green Star – Performance</i> assessment.	01/01/2018 to 31/12/2018
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------

1. Carbon Neutral Information

1A Introduction:

DHL Supply Chain is one of Frasers Property's key tenants, and were a natural fit for a carbon neutral partnership. DHL Supply Chain has a mission to achieve zero emissions by 2050, and to be the industry benchmark for responsible business practices. Frasers Property has a target to achieve carbon zero emissions, in line with science-based targets, by 2028. Frasers Property is already a certified carbon neutral organisation under the National Carbon Offset Standard.

As part of this carbon neutral certification, DHL Supply Chain and Frasers Property have partnered to improve the efficiency of this facility, through LED Lighting upgrades and the installation of a 200 kW solar PV system. DHL Supply Chain have also turned off the warehouse air conditioning during winter, resulting in a dramatic energy reduction within the facility. Forklift charging is also staggered to reduce peak demand.

1B Emission sources within certification boundary

Table 1. Emissions Boundary

The Responsible Entity has achieved Carbon Neutral Certification for the	Base Building; or	<input type="checkbox"/>
	Whole Building.	<input checked="" type="checkbox"/>
The Responsible Entity has defined the building's emissions boundary (in terms of geographic boundary, building operations, relevance & materiality) as including the following emission sources	SCOPE 1: - Refrigerants - Diesel	
	SCOPE 2: - Electricity	
	SCOPE 3: - Water - Wastewater - Waste - Transport from building operations (DHL-owned vehicles) - Transport from staff commute	
Shared services are present within the project boundary which enable the building to fulfil its function	Yes; or	<input type="checkbox"/>
	No	<input checked="" type="checkbox"/>

Table 2. Exclusions

--	--	--

The following emission sources have been excluded in line with the provisions of the Climate Active Carbon Neutral Standard for Buildings. The impact of excluding these sources is not expected to materially affect the overall total emissions.

Transport from third party contractors

Reasons each excluded emission source has been excluded

DHL has no operational control and calculation is technically infeasible

2. Emissions Summary

Table 3. Emissions Source – Summary (for projects using the 15B, 15C, or 15D pathway)	t CO2 –e
Scope 1: Refrigerants	6.965
Scope 1: Combustion of fuel	2.891
Scope 2: Electricity	600.81
Scope 2: LGCs generated onsite and not surrendered	NA
Scope 3: Fuel & electricity	66
Scope 3: Water	2.784
Scope 3: Wastewater	2.173
Scope 3: Waste (includes transport)	80.139
Scope 3: Transport – See Table 4 below for itemised transport.	379.817
Scope 3: Carbon Neutral Certified Products and services – See Table 4 below for itemised products and services.	0
Scope 3: Other Products and services – See Table 4 below for itemised Other Products and services.	0
Scope 1, 2, 3: Other – See Table 4 below for itemised Other.	0
Total Gross Emissions	1141.579
Green Power purchased (scope 2)	0
Total Net Emissions	1141.579

Table 4. Emissions Source - Itemised	t CO2 –e
Carbon Neutral products and services	t CO2 –e
Total Emissions	

Table 4. Emissions Source - Itemised		t CO2 –e
Transport		t CO2 –e
DHL Vans - Customer: BRP		76.392
DHL Vans - Customer: Trimex		0.567
DHL Vans - Customer: Pandora		70.516
DHL Vans - Customer: Wella		118.558
Staff commute		113.784
Total Emissions		379.817
Other products and services		t CO2 –e
